Selly Manor Museum Family Trail

?

George Cadbury is best known for creating
Cadbury chocolate, but he also had a passion
for history. He moved these two historic
buildings, Selly Manor and Minworth
Greaves, into Bournville, and filled them
with fascinating objects for visitors to explore.

However, he's now lost track of where
everything is and what it all does!

Can you explore Selly Manor and help
Mr. Cadbury find and identify these
interesting items?
