

Travel Bursaries for School Educational Trip to Bournville

With the support of funding from the George Cadbury Fund we are working to support schools to access educational trips by offering travel bursaries. We are also aiming to increase the number of primary schools taking part in our sessions to discover the rich history of Bournville.

Created by chocolate manufacturer and philanthropist George Cadbury, Bournville is a garden village designed to improve housing, influence others and ensure a strong sense of community. Through a interactive hands-on session the Selly Manor Education Team deliver a rich experience for Key Stage 1 and 2 pupils to explore Bournville in a guided tour, and activities such as games, object handling and a design your own village activity.
